ABOUT ME

- I'm both a skillful architect and a very ambitious designer, self-motivated person, adaptive, good problem solver and self learner.
- The combination of being an architect and an artist is what makes me a very unique asset to any company. Because of my architecture I learned the math i need to solve any problem, and with my artistic mind I innovate with my solutions.

EXPERIENCE

- **2014-2015**
Graphic Designer [Internship]
5D STUDIO SYRIA
3 Months
I did an internship at 5D Studio while I was studying at the university.
I learned how to design nice logo good posters and vouchers using Photoshop.
- **2014-2015**
Graphic Designer.
5D STUDIO SYRIA
9 Months
- At this stage I got a bigger responsibility where I had to understand the users needs and design the products from the ground up
- One of the main tasks I was doing was to render the final working into nice posters and logo.
- **2016-2017**
Graphic & UI/UX Designer.
Freelancer
12 Months
- I was focussing mainly on UI/UX designs and I was doing some web development using HTML and CSS.
I was also working on Sketch to design apps for Android, iOS, and Web.
All my projects are on my Behance profile.
- Successfully manage and create graphic design starting from concept until completion.
- Work closely with clients to create a vision, conceive designs, and consistently meet deadlines and requirements.
- Expertly convert features to benefits to achieve client objectives.

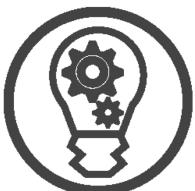

EDUCATION

- **ARCHITECTURE ENGINEERING**
Yarmouk Private University
Damasucs, Syria
2012-2017
- **political science**
Damascus University
Damasucs, Syria
